

12 CREATIVE SPRING CLEANING HACKS

as voted by our Kleenheat customers

- 1 Get the carpets cleaned on the first warm day (after everything has been dusted off!) Then wipe everything down with a spritz of water, vinegar and soluble eucalyptus oil. *Alyce, Beeliar*
- 2 Do a once a year clean of linen cupboard and pantry. Re-arrange, discard, clean. You'll then know exactly what you have and get rid of any pests which may be breeding. *Nadia, Stirling*
- 3 Get the whole family involved...there's strength in unity, so have a plan! *Julia, Gosnells*
- 4 De-clutter, get rid of anything you no longer use. Clothes, appliances & furniture can be donated to those in need. *Barbara, Forrestfield*
- 5 Mulch the garden to save on watering and keep those beautiful blooms. *Ryan, Forrestfield*
- 6 Clean out your linen closet and get rid of all those items you no longer use. You'd be surprised how much storage space you create! *Tina, Joondana*
- 7 Use a bit of white vinegar in some warm water to clean the dirt off the fan blades. *Thuc, Westminster*
- 8 Use the old rule - if you haven't used it or worn it in the past 12 months then donate it to charity or sell for some extra \$\$\$. *Stephanie, Kingsley*
- 9 My main tip is....do a little bit every day. 30 minutes each day spread over a week is easier than 4 hours on one day. *Jodie, Maddington*
- 10 Add lots of greenery to the house and make it come alive. *Renae, Spearwood*
- 11 Always use cleaning vinegar, bi-carb of soda and lemon juice mixed in a spray bottle for bathrooms, toilets, the kitchen, and washing of floors. What a shine and sparkle. *Yvette, Mandurah*
- 12 Eucalyptus oil scrubbed on all surfaces - because it is lethal to fungi and bacteria, plus it smells fresh and nice! *Caroline, Cloverdale*
